

Doc. Ing. Václav Prajzler Ph.D.

Born in Prague, Czech Republic in 1976, married, 2 children

EDUCATION

2014-now Associate Professor at the Department of Microelectronics of FEE, CTU in Prague
2020-now Head of Optoelectronics Group at the Department of Microelectronics
2007-2014 Researcher at the Department of Microelectronics of FEE, CTU in Prague
2007 Dr. techn. (Ph.D.) degree in Czech Technical University in Prague, Czech Republic
2001 Dipl.-Ing. (MSc) degree in Czech Technical University in Prague, Czech Republic

Languages: Czech, English, passively: German

PROFESSIONAL EXPERIENCE

2020 (3 month) visiting researcher at the PROFACTOR GmbH A-4407 Steyr-Gleink, Austria
2021 (3 months) visiting researcher at the PROFACTOR GmbH A-4407 Steyr-Gleink, Austria

PROJECTS

2023 – 2025, TK05020031, Technologická agentura ČR – Development of optical cables for use in special applications and in extreme conditions. (Investigator)
2023 - 2025, TK0502003, Technologická agentura ČR - New advanced integrated fiber optic connectors for demanding applications. (Co-investigator)
2023 - 2025, FW06010161, Technologická agentura ČR - Fiber optic elements with new standards for optical connectors for safety-intensive applications. (Co-investigator)
2023 - 2025, FW06010382, Technologická agentura ČR - Advanced nano-optical elements on rigid planar and curved substrates for next-generation lighting systems. (Co-investigator)
2019 – 2021, TH04020118, Technologická agentura ČR – Optical planar channel polymer waveguides for high-capacity and high-speed data transmission. (Investigator)
2019 – 2021, TH04020195, Technologická agentura ČR – Micro and nanostructured waveguides for controlled distribution of light. (Co-investigator)
2020 – 2022, SGS20/175/OHK3/3T/13, ČVUT – Integrated and Phonic Circuits and Microstructures (IFOM). (a member of the research team)
2017 – 2019, SGS17/188/OHK3/3T/13, ČVUT – Micro and nanostructures and components. (a member of the research team)
2015 – 2018, TH01020276, Technologická agentura ČR – Flexible 2D & 3D polymer photonics structures. (Investigator)

CURRENT RESEARCH INTERESTS:

- Integrated Optics
- Planar optical waveguides, polymer optics waveguides
- Optical fibers and cables for harsh environments

Collaborations:

National Taiwan University of Science and Technology - prof. Wei-Nien Su, prof. San-Liang Lee

Yonsei University, South Korea - prof. Kyunghwan (Ken) Oh, Ph.D.

Ajou University, South Korea - prof. Kim, Sunghwan

PROFACTOR GmbH - DI Daniel Fechtig, Ph.D., Dr. Michael Mühlberger

OPTOKON, a.s.; OPTOKON Kable Co., Ltd., s.r.o. – ing. Jiří Štefl

IQS NANOPIQS s.r.o. – ing. Marek Škereň Ph.D.

PUBLICATIONS

more than 100 published scientific and technical papers in WOS.

H-index: WOS: 15
